Private pilot licence

ICELANDIC ACADEMY

Bachelor of Arts, Graphic design

OF THE ARTS

2001 - 2004

General studies in graphic design.

MENNTASKÓLINN AÐ LAUGARVATNI

1995 - 1999

College degree (Natural Science)

ABOUT ME

I consider myself a creative person with good communication skills. I have a keen interest in everything that concerns software engineering and design-related tasks with a focus on web media. I make efforts to keep up with all the latest in software and web design at any time for practical use and fun. I believe it is important to approach each project individually with the basic needs of the client as a guiding principle.

I have worked a lot with .NET platform but I have also used other programming environments such as Java and IntelliJ. React (javascript) and C# are the programming language that I've been using for the most part in my projects. I have experience in working both as a frontend and backend developer and I can say that I enjoy both. It can be said, however, that my strong side is in frontend development.

I am educated as a graphic designer and have worked as such for a company in Iceland and I believe such an experience would make of good use when participating in software development projects. Also, I have considerable experience in team work and I have participated in sprint planning and meetings at my work.

Hobbies include travel, cycling, music, skiing and aviation.

EXPERTISE

- Software development
- Web development
- Prototyping
- Graphic design
- SCRUM/AGILE
- Creative thinking

COMPUTER- RELATED KNOWLEDGE

Backend related

C#, .NET, PHP, C++, MS SQL, python, linux, shell scripting

Frontend related

javascript, jQuery, ReactJS, AngularJS, Typescript, NodeJs, Lodash, Webpack, Babel, Gulp, Lerna (mono repo), JEST

Design and prototyping

Photoshop, Illustrator, Zeplin.io, Invision, Figma, Miro

Other

Git, Bitbucket, JIRA, TeamServer, Octopus

LANGUAGE SKILLS

I can speak and write Norwegian and Danish quite fluently. I studied English and German in college. My German language proficiency is intermediate and my English proficiency is very good.

ENDORSEMENTS

Recommendations can be provided upon request later in the job application process.
